

BUILD A CAREER THAT HELPS MOVE PEOPLE FORWARD

*People, choices and the
lives they want to build*

Financial Planning isn't about products. It's about giving people the confidence to make the big calls: when to retire, how to pass on a farm, how to fund the next stage of a family's life.
It's a career built on trust, not transactions.

Financial Planning is about More Than Money

- **Listen. Build Trust.** Great advisers earn the right to give advice by understanding each client's life, not just their balance sheet

- **Make a Measurable Impact.** See the direct result of your advice in every client's life

- **Grow with a Firm that Grows You.** A clear pathway:
Client Support → Paraplanning → Associate Adviser → Wealth Adviser

Stay Regional. Think Bigger.

Why Carrick Aland Wealth Planning?

CAWP clients are regional families and business owners — real, complex financial lives, not cookie-cutter portfolios.
